### Recruitment of Registered Nurse Position

ivynursinghelp.com

Dear Ms. Williams,

I am writing to express my interest in the Registered Nurse position at Baylor University Medical Center. With over 10 years of experience as a Registered Nurse in both acute care and critical care settings, I bring proven expertise, clinical leadership, and a passion for patient advocacy.

In my current role at Texas Health Presbyterian Hospital, I provide direct patient care in a 32-bed medical-surgical unit, caring for diverse patient populations with complex needs. I am proficient in medication administration, patient assessments, wound care, IV therapy, and electronic health record (EHR) documentation. I consistently collaborate with physicians, therapists, and families to create individualized care plans that improve patient outcomes.

Beyond bedside care, I have been entrusted with mentoring new nurses and leading evidence-based practice projects, including an initiative that reduced hospital readmissions for heart failure patients by 18% within one year. This experience not only refined my leadership and teaching abilities but also reinforced my belief in the importance of teamwork and quality improvement in nursing practice.

What draws me to Baylor University Medical Center is its commitment to excellence, innovation, and patient-centered care. I am particularly inspired by your focus on advancing nursing education and evidence-based practices, and I am eager to contribute my skills in patient safety, critical thinking, and compassionate care to your dedicated team.

I would greatly appreciate the opportunity to discuss how my background and expertise align with your hospital's goals. Thank you for considering my application. I look forward to the possibility of contributing to Baylor University Medical Center's tradition of excellence in nursing care.

Sincerely,

David Thompson
